# BriQ Properties - Asset Dynamics Proposal

By leveraging the Asset Dynamics platform, your organization can streamline operations, enhance financial oversight, and improve overall asset management efficiency. We look forward to the opportunity to support your real estate management needs.

**Current Scope**

- Lease Management
  - Create new leases, track vacancies, model cashflow, simulate tenancies, and store agreements.
  - View a master rent roll across all assets

- Opex / Capex Management
  - Create and manage new Opex / Capex contracts

- Reporting
  - Access out-of-the-box reports e.g. KPI charts on landing page (Income, Expenses, NOI, Forecasts vs Actuals) and drilldowns
  - Configure bespoke reports using BI integrations
    - These are reports that are highly specific to the customers business operations (Tableau supported)

- Notifications
  - Receive alerts for lease expirations, lease breaks, insurance renewals, and more with options for customized alerts

- Synchronization with SAP Accounting Module (target: 1st October 2024)
  - Sync key data, including marked-up bank transactions, to reconcile against forecasts and avoid double entry of work
